PROGRAM: Sherril Gardipee, First VP Programs, had secured a Legislative update by Representative Brad Buckley, Chairman, Education Opportunity and Enrichment Select Committee; however,

Governor Abbott has called a 4th Special Session so he was not able to join us. We received information and updates from Brenda Howard, President. Brad has worked very hard and put in many hours on HB 1, which includes more money for public schools, teacher raises and education savings accounts. Unfortunately there are fellow Republicans working against passage of the Bill, which is up for a vote again tomorrow 11/17/23. A list of those opposing was distributed and members were urged to call and encourage their unity and support.

Jessica Diem, District Director Texas HD 54, shared that Brad had hoped for a vote on the education bill calling for school choice; however, there is an amendment being added to strip education savings accounts from the bill. She asked us to pray for Brad tomorrow as he has a long, hard day ahead. She did share a note of hope – God cares for children. Gov. Abbott chose Brad because of his heart for fairness and love of children. Abbott is in this for the long haul. He will call as many sessions as it takes to get school choice passed. The members present joined in for a video saying “Thank you Brad” that will be sent to encourage him.
